

Rentals sustaining community

an evening prayer
or rest

As our name suggests, we value simplicity that leaves room for reflection, authentic self-expression and genuine interpersonal connections. Our style incorporates clean, modern design elements accented with imagery that expresses our ethos of inclusion.

As a non-profit venue, our model takes the income generated from your rental and invests it back into the community by providing free or reduced cost space to community members who can't afford market rates for their creative, community engagement projects. This means that your rental at Vesper concurrently serves a dual purpose by providing an elegant space for your wedding and for future events enjoyed by the community at large.
